Concentration 1/4 & 1/2

CONCENTRATED PROFESSIONAL FORMULATION
MAKES UP TO 33 GALLONS
1 U.S. Gallon / 3.8 Liters

"I have a grooming salon in Stockport, Cheshire in the UK. One of my regular clients is a rather large Alaskan Malamute called Busby. He smells! I've tried all brands of shampoo to rid the dog of this horrendous odour.

Then I tried Grimeinator®. Wow! It worked! His owner was delighted that her dog smelled so nice at last! So 'thank you' Double K. I've ordered four gallons of Grimeinator® and I find that not only are the dogs cleaner, whiter and odour free, but they seem to dry quicker and the overall finish is fantastic! The coats are so much easier when doing the finishing trimming and clipping after their bath.

Thank you for such a brilliant shampoo! And yes, I HAVE used it on my own hair - I was getting my dogs ready for a show and my hair needed to be washed, so while I was in my grooming salon, I thought I may as well do my own hair. We laughed all day when people commented on how shiny my hair was - and yes, I did admit using Grimeinator®!"
